I've been thrilled working with Mayur Gudka and Websum, who has kept my website and social media connections updated, along with the PR work he's done for all my books.

Without him I'd be overwhelmed with all that is required to keep my books front and center to garner attention. I would and have recommended him to other authors.

Mayur is efficient, knowledgeable and pleasant to work with. I'm so glad another author had recommended him to me.

Marian Lanouette is the author of Jake Carrington Mystery Series. Her books are published by Kensington Publishing, Corporation.

WEBSUM

Testimonial from Author Sally Chetwynd

Mayur Gudka of Websum designed my website, Brass Castle Arts, with which I am most pleased.

He walked me through the process, advised me on the best software and programs to suit my needs and budget, and showed me how to work with my website on my own, once launched.

I am happy to retain his services for future administrative tweaks and nudges to the website.

Mayur is personable and friendly, patient, accommodating, and always encouraging, with an upbeat attitude. I have enjoyed every meeting with him and consider him a friend.

I recommend Mayur Gudka to anyone needing website work, as well as Websum's other professional services.

Sally Chetwynd is the author of *Beads of Sand* and *The Sturgeon's Dance*.
